GENERAL NEWS

Lehigh Valley Lease.

The Gossip Originated in Philadelphia and Is Apparently Idle in Its Character-Additional Particulars Concerning the Jersey Central's New Traffic Deal-Railway and Industrial News and Comment Chronicled in Crisp Notes.

Among the things that the quid nuncs in Philadelphia are discussing just now is a little rumor that the Pennsylvania people want to lease or buy a controlling interest in the Lehigh Valley. The point is elaborated with some care, by those who have nothing more important to do, that the alleged constitutional objections to such an alliance could easily be overcome by law yers clever enough for that purpose. It is also intimated that such a union, while of benefit to the Valley stock-holders, would, at the same time, give the present Valley management an opportunity to retire gracefully and with glory. This theory would be interest-ing if it had facts to support it. The lack of such support is its chief weakness. It has to be proved first, that the Wilburs want to retire and then that the Pennsy wants to succeed to the control of the Lebigh Valley. Neither proposition is yet established. Neither, we believe, is seriously entertained by any considerable proportion of well-in-

formed financiers. Last week the eighteen reporting collieries of Luzerne county, including ten of the Lenigh and Wilkes-Barre Coal company's workings, shipped a total of 29,208.13 tons, or just a little more than half the usual shipment. The total of the new year is 71,426 15

In spite of President Maxwell's denial that the new traffic dear with the Consolidated involves no act of hostility toward the New York and New FOR RENT_TWO-STORY BRICK DWEL in Philadelphia, The financial editor in Philadelphia, The financial editor of the Press writes apropos: "It is agent 721 West lackswanns avenue."

On LET FOR A TERM OF YEARS—the Poughkeepsie Bridge route which is avidently Mr. Maxwell's notion. The is evidently Mr. Maxwell's notion. The Reading company and other parties to the contract will ship coal and other traffic via the Poughkeepsie Bridge as usual when it is proper that it should go that way. This route out of New England is certain to be a great highway forever and it cannot be closed up by Mr. Maxwell or Mr. Vanderbilt. At this moment there is an attack on the Poughkeepsie Bridge system by the Yanderbilt-Reading interests in order to injure the New York and New England road and to facilitate the Reading reorganization. The real battle has not yet come off, but there is active sparring for position which is as interesting to spectators as the more seri-

> Contractor McFadden, of Philadeland Black Lick branch for the Penn sylvania, since he resumed work in December, has gradually increased its force, and now has about 700 men employed beyond Epensburg. The road will be built from Ebensburg to Black Lick station on the Indiana branch of the Pennsylvania, a distance of something like ten miles. Of this distance the grading on five miles, beginning at Ebensburg, is now finished.

An admirable innovation has been started by the Pennsylvania system, which has put in the hands of each or the forty physicians now employed as "medical examiners" in connection with the Employes Relief department, a handbag thorougly furnished with such instruments and appliances as a medical man may need when called on to relieve suffering. These 'emergency SCRANTON, Jan. 22.—FRUITS AND PRO- satchels," as they are called, are inthose having them in charge when traveling, so that they can at once respond to any sudden call for professional aid to passengers or employes.

The Westmoreland Coal company, by a system of underground tunnels, his connected its South Side mine at Lari-mer station, on the Pennsylvania rail road, with the workings of James W Shields' mine at Oscools, on the Balti-more and Ohio ratiroad. The tunnel is five and one-half miles in length, running through parts of North Washington and Versailles townships, Westmoreland and Allegheny countles. > During November the net earnings of the New York, Ontario and Western railroad were \$90,907, again, despite the business depression, of \$27,684 over the net earnings of November, 1892. The net earnings of this prosperous road for the five months ended November 30, 1893, as compared with the same period in 1892, show a gain of \$124,693. It is claimed by many railway managers that this record is one of the best made by any company last

The Centre County refused an injunc-tion asked for by the Pennsylvania Rail-road company to restrain the Valentine Iron company from shipping freight over the new Central Railroad of Pennsylvania. The Pennsylvannia Railroad company is preparing to lay a large amount of new steel rails of sixty-foot length. A small amount of such rails has been in use for some time and has proved in every respect

satisfactory.

The demand for coal and coke in the Fairmont and other West Virginia coal fields is poor. There is little production, but it is not half the capacity of the mines and ovens. The mines along the West Virginia Central and Norfolk and Western railroads are practically doing nothing. About 90,000 is being paid to employes of the Philadelphia and Reading railroad

FINANCIAL AND COMMERCIAL

Stocks and Fonds. New York, Jan. 22.—The course of the market at the opening of the Stock Exchange today was a disappointment to the bulls who were looking for higher prices on the heavy subcriptions to the new govrnment loan and last week's enormous gain in the bank reserve. When the pressure against sugar was lifted and the London selling shated the whole list started up and a starp rise ensued. Net changes for the day show gains of M to I per cent. except for Louisville and Nashville, Missouri Pacific, Reading and Union Pacific which let it. which lost 35 to 36 per cent. Sugar is down 35 and the preferred 134 per cent. Total sales were 217,570 shares.
